News Release

FOR IMMEDIATE RELEASE

Pengo Technologies, Inc., announces the release of The “Mini Hamburger,” the next generation of media storage solutions.

BALDWIN PARK, CA – February 25, 2006

Pengo Technologies, Inc. launches the new “Mini Hamburger” a compact universal storage carrying case with 10 Mini DVD-R Discs.

The Mini Hamburger is only 3 1/2” in diameter x 3/4” depth - though small its storage power is 14 GB’s of data! With unmatched portability, convenience and efficiency, Pengo’s 10-pack mini DVD-R is perfect for a wide variety of applications including video, still images, graphics, business presentations and data sharing.

One Pengo mini single - sided DVD-R is capable of storing more than 30 minutes of video content, or 1.4 GB of data. A Pengo double-sided mini DVD-R version, can store 2.8 GB of data. The mini DVD-R holds twice as much as a typical CD, more compact and a more transportable system.

To date, the most familiar application for the Mini DVD-R is its use in camcorders. While there will be continued growth in this category, the company expects the format to truly explode once the unique advantages of the Mini DVD-R technology are more widely understood and the consumer reaps the cost and storage benefits.

Pengo's environmentally friendly Mini DVD-R uses 55 percent less plastic than traditional DVDs. Because of the reduction of plastics in the manufacturing process, the need for less petroleum based raw materials, consumers are helping to protect the environment while saving money. Thus end-users and businesses have a more portable, convenient and inexpensive option.

Most consumers use only a small fraction of the storage capacity of the standard DVDs. Using Pengo's Mini DVD-R, customers can still have the capacity they need for music, data, applications and documents, without the bulk, cost and waste of conventional DVDs and CDs.

Pengo's versatile and imaginative packaging for its proprietary "Mini Hamburger" is currently available in 4 colors plus clear - magenta, neon green, purple and Bahama blue. All mini cases come with a handy carrying strap.

Pengo's philosophy is to offer unique media storage solutions at costs that are more realistic. When you have your own in-house 2D and 3D design team and are the manufacturer of your products, the quality is paramount and the savings significant.

"Mini Hamburgers" and a full product line of media storage solutions are available through Pengo Technologies Inc., 5001 Commerce Dr., Baldwin Park, CA 91706, Linda Kane (Linda@pengo.com), Media Relations or David Chen (david@pengo.com), Vice President Marketing Tel: 1-888-736-4699 (888 PENG0 99).
